Th (Apr 19) Developments in Electronic Music: Synthesizers, Live-Electronics, and Computers. (1960-70s) **LISTENING QUIZ II**

Last classes (T-Th-T, May 1, 3, 8) devoted to student reports. Each student chooses a current composer not presently associated with the Eastman School (or recently deceased) and provides an overview of his/her contributions to new music. Score and recording of (portions of) significant works should form the backbone of the report. Place the composer in his/her life and times, but avoid or criticize PR hype. Provide a reference-list of works, recordings, and writings about the composer. Do some musical analysis on passages from representative works. Assume your audience is a group of interested and sophisticated composers. Your talk should be organized well—use handouts and have any recordings ready to play, cued—and last just about 45 minutes, no more or less.

Th (May 3) **PROJECT III DUE** (A work utilizing or reflecting the techniques of “minimalism.”)

Within W-Th-F (May 9-11) **FINAL EXAM** (three hours) during Exam Period.
